Language revitalisation

Organisations

I participate in two organisations aimed at promoting and teaching Mapudungun both on Internet and in the city of Concepción, Chile. The first project is Kimeltuwe, which was created in 2015 and has more than 200.000 followers in Facebook. The other project is Fiw-Fiw ñi Dungun, an organisation that teaches Mapudungun through online courses and summer camps since 2019. In this organization, we create our own materials and provide training to form new teachers of the language.
